Aftersun

Un film réalisé par : Charlotte wells

I think it's nice that we share the same sky.

- What you mean?

Well, like... Sometimes at playtime, I look up at the sky and if I can see the Sun then... I think that the fact that we can both see the Sun, so even though we're not actually in the same place and we're not actually together... we kind of are in a way, you know? Like we're both underneath the same sky, so... kind of together.
